

Hello,

I would like to point out a few facts I have discovered about C3SR.

First, I want to point out their domain name, "c3sr.org":

These are the vital statistics on their domain name:

Domain ID:D137550478-LROR
Domain Name:C3SR.ORG
Created On:17-Jan-2007 18:25:48 UTC
Last Updated On:19-Mar-2007 03:48:57 UTC
Expiration Date:17-Jan-2009 18:25:48 UTC

This domain was registered just as rumors about a merger were flying around, nothing was officially announced yet but you could speculate about a merger. As such, C3SR assumed a merger would take place and registered the domain.

The point here? They exist solely to oppose the Sirius/XM Merger.

Now what about the registration details?

Registrant ID:GODA-026970523

ICANN requires that there be legitimate information in the WHOIS information for a domain name, what's significant about this is they went out of their way to "hide" the owner of their domain name c3sr.org by using a "Proxy" to register their domain name, obviously, they do not want the public to easily find out who they really are.

Now why would a "consumer coalition" want to hide who they really are? Why would they want to use a "Proxy" to register a domain name?

Could they be a proxy for the NAB?

I have attached a screenshot of the registration details in the event that they are changed as a result of this filing, If they make a change to their domain, the last updated will change from March 19th 2007 to a date after this filing, this should be viewed as suspicious.
